

# SP-24

SURFACE MOUNTED LOOP PAD

## Applications

The SP-24 is a sealed, surface mounted loop pad uniquely designed for automated carwash systems. The durable polypropylene housing stands up to the detergents used in the carwash industry. Its proper location is between the guide rails where the product cannot be struck or driven over. The SP-24 is able to detect up to 30 inches high when coupled with the EMX line of vehicle loop detectors.

# SP-24
