# Turf Reinforcement Mesh

Tenax's Turf Reinforcement (TR) is a green polyethylene extruded mesh used to reinforce grassed areas where vehicles & pedestrian pass. This "Go Green" product is natural looking, UV stabilized, cost effective, & easy to install. It also helps to reduce stormwater run off which is a common concern with traditional asphalt & concrete. Once installed, TR provides a very stable surface suitable to support cars, lightweight trucks & pedestrians. TR protects against ruts commonly caused by vehicles & helps to reinforce the root system. For optimal results, install in the spring.

### TURF REINFORCEMENT MESH

Product Code	Color	Roll Size	Mesh Size	Weight Per Roll
61620308		6.7 ft x 100 ft	1 3/8" x 1 1/4"	88 lbs

### METAL FIXING PINS

Product Code	Color	Quantity Per Case	Size
2A060016		500	8" x 1" x 8"

### PARKING MARKERS

Product Code	Color	Quantity Per Case
3A032242		100

### Ideal Uses:

- **Over-Flow Parking**
- **Footpaths**
