

TENAX

Diamex

DESCRIPTION

Strong, sturdy UV stabilized plastic safety fence ideal as a safety barrier around construction sites or utility work. Diamex diamond mesh safety fence was specifically designed for reducing sag where a more rigid safety barrier is needed. Ideal for use in areas where wind damage is an issue for traditional safety fences.

BENEFITS

- Makes a great temporary barricade or warning fence
- Lightweight - easy to carry
- UV stabilized - long lasting
- Reusable and Recyclable
- Won't rust, rot or corrode
- Easy to install using T-posts, wooden posts or existing fences

USES

- Safety fence around construction sites
- Affords greater strength than visual barrier safety fence
- Diamond mesh resists wind damage & sag
- Block off property lines, unfinished buildings, sewer holes
