D&D Technologies
World's most trusted gate hardware

Since 1989

Proudly the world's leading innovator and manufacturer of premium gate latches, locks and hinges...

The installation of a new gate is an important decision, regardless of it being for residential, industrial, commercial or child safety applications.

In general, gate latches and hinges make up just 1% of the total cost of a fencing installation...but they make the other 99% function and protect effectively.

The operation, construction (materials used), quality, weight, functionality, footprint and security are just some of the variations to consider when making an informed decision about gate hardware.

For over 35 years D&D Technologies has been developing gate-closing systems you can trust, with state-of-the art manufacturing, quality testing and, most importantly, products backed by a guarantee to always perform to their intended use.

D&D Technologies now has over 350 Hi-Performance Gate Hardware Solutions!

AWARDS, MEMBERSHIPS, GLOBAL AFFILIATIONS & COMPLIANCES

D&D Technologies operates under a fully accredited and internationally recognized ISO 9001 Quality Assurance System, which governs the design and manufacture of all our proprietary products.

WARRANTIES & LIABILITY

All D&D Technologies’ (“D&D”) proprietary* products are warranted free of defects in materials and workmanship to the original purchaser for as long as they own the product.

If a structural defect appears, the original purchaser may return the item, freight prepaid, together with proof-of-purchase to D&D or its approved international agents.

D&D or its agent will, at their discretion, repair or replace the defective item or part without charge to the purchaser.

THIS WARRANTY SHALL NOT APPLY WHEN the product has been tampered with, when repairs or attempted repairs have been made by unauthorized persons, where the item has been subjected to misuse, abuse, accident or damage in transit, or where the installer has not followed the instructions set out during installation, operations or Maintenance Requirements.

IN NO EVENT SHALL THE COMPANY BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES. No warranty is given other than that set out above. No other express or implied warranties (including statutory warranties) apply, other than warranties which may not be legally excluded.

For full Warranty terms & conditions please refer to the individual products’ documentation.

Note: D&D Technologies reserves the right to modify or update any products within this catalog without notice.

** Warranty terms on non-proprietary products offered by D&D may carry different conditions and requirements. Refer to those individual products for more details.*

A proud history of innovation

Dave Doyle

D&D Technologies begins life as D&D Aluminium Balustrading, a custom-made, aluminium and glass pool fencing and balcony railing company. Based in Sydney, Australia, it was co-founded by David Doyle and Neil Dunne. The "D&D" is derived from the surnames of the company's two founding partners.

MagnaLatch is invented! David Doyle sees a TV science program featuring "rare earth" magnets – powerful "new" magnets that never lose their magnetic force. From this he gets the inspiration to develop a magnetic gate latch that won't jam, stick or rust, and will always engage to close reliably.

The first magnetic gate latch manufactured. The first hand-made **MagnaLatch® 'Side Pull'** is constructed for use on all D&D Aluminium's gates. D&D Technologies is formed soon after to manufacture the gate latches in Sydney, Australia.

SILVER MEDAL

LELINT, GENEVA

D&D invents Polymer Safety Gate Hardware. **MagnaLatch® 'Top Pull'** Child Safety Gate Latch & **TruClose® S1** Polymer Hinges are released. Both revolutionize child safety for swimming pools, childcare centres, homes and businesses. **MagnaLatch®** wins the Silver Medal at the Geneva International Exhibition of Inventions.

Australian Design Award

MagnaLatch® Series 1 wins the prestigious Australian Design Award from Standards Australia.

The original **TruClose® S1** gate hinge wins the Australia Design Award from Standards Australia.

MagnaLatch® Top Pull and **TruClose® TCA1** accepted into select BBC and McEwan Hardware stores, with both soon to become **Bunnings Warehouse**. Initial packaging entailed two products shrink-wrapped to porous backing cards.

TruClose® Series 2 Regular, Heavy Duty and MultiAdjust Hinges are born. D&D Technologies (USA) Inc. established in Los Angeles, California. Export markets expand to numerous countries, marking the beginning of D&D Technologies as a global brand.

TruClose® Vizage™ receives a Good Design Mark from Good Design Australia. **MagnaLatch® LOCKABLE Side Pull Series 2** launched.

Introduction of the **SureClose®** range of heavy duty, hydraulic gate hinges and hinge-closers. **Stainless Steel Vizage™** Side Pull Gate Latch released to market.

D&D introduces **innovative, sustainable-design flexible pouches** for retail hardware lines, eliminating the need for costly and wasteful clamshell packs.

D&D releases the **TruClose® Series 3** safety gate hinge range. **LokkLatch® MAGNETIC** launched in another innovative 'first' to fencing market. Both product ranges include optional, metalized trim covers.

Introduction of the contemporary **MagnaLatch® S3** with revolutionary Locked/Unlocked indicator light. **SureClose® READYFIT** launched. Within six months on the market it wins Architectural Record's 2014 Product Award in the USA.

D&D releases the **MagnaLatch® ALERT Gate Latch-Alarm**, the world's first safety gate latch with built-in electronic alarms. **MagnaLatch® ALERT** awarded Good Design Award by Good Design Australia. **KwikFit™ Aluminium Hinge** range launched.

D&D acquires **Shut-It® Gate Hardware**, a range of industrial, metal gate hardware. 'BadAss' and 'Hard Core' product lines introduced to the D&D range. **D&D Technologies wins the Australian National Export Award** from the Master Builders Association Australia.

SHUT-IT®

D&D launches the new brand line **Stainless Steel**, a 100% marine-grade, powdercoated range of hinges and latches for the vinyl gate market. Regular and Heavy Duty models available.

2017

The original **LokkLatch® Series 1** with an EAK (External push-button) and built-in locks is launched, marking the first significant advancement in gravity gate latches in centuries.

D&D releases the **MagnaLatch Top Pull® Series 2**, a marked improvement over Series 1 designs and the world's first horizontally and vertically adjustable safety gate latch.

MagnaLatch® Series 2 'Top Pull' wins **Kidsafe 'Product of the Year'**. MagnaLatch® endorsed by Royal Life Saving Society, Water Safety NZ and Laurie Lawrence's *Kids Alive* National Drowning Prevention Program.

Launch of the **LokkLatch PRO**, a true key-way lock, accessible from both sides with 6-pin security locks. **David Doyle** posthumously awarded SPASA's (Swimming Pool & Spa Association) coveted Ellis Champion Award.

LokkLatch® PRO Privacy and Security Gate Latch wins the prestigious Australia Design Mark from Standards Australia. **Founding partner** of the National Drowning Prevention Alliance.

Series 2 LokkLatch® DELUXE and **LokkLatch®** general-purpose gravity gate latch launched to market.

Patent application filed for a **LokkLatch®** with a self-locking mechanism. **LokkLatch® PRO Self-Locking Gate Latch** launched to market.

Introduction of the **TruClose® Vizage™ Hinge** for glass-to-round-post gates and fences, with revolutionary tension adjustment from both ends of hinge. The Vizage™ Hinge is the first to market with optional, decorative metalized trim hinge covers.

1997 1999 2000 2002 2004 2006 2007 2009

KwikFit Series 3 is launched. A general-purpose hinge ideal for light-to-mid-weight gates around homes and gardens. Available in plain pivot or self-closing models. The new D&D website is launched **www.ddtech.com** with improved functionality and compatibility on all viewing devices.

D&D introduces the **SureClose® READYFIT 180°**, a hydraulic hinge-closer that self-closes heavy duty gates from up to a 180° opening angle. Release of the **LokkLatch® PLUS** Privacy Gate Latch with distinctive D&D green key, operates and locks from both sides of the gate.

Introduction of the **SureClose® CONCEALFIT**, an all-in-one concealed hydraulic hinge-closer for doors or gates. Easily installed within the door and frame for a clean, distinctive look and added security with burglary resistance. Meets ADA and DDA requirements.

The **TruClose® ROUND** model hinges are redesigned with added strength and enhanced styling to match the newer Series 3 style. **MagnaLatch® Side Pull** body is redesigned to set it apart from counterfeit products. D&D's R&D team begins work on pedestrian access control products of the electronic variety.

ASSA ABLOY

LokkLatch® DELUXE Series 3 Privacy & Security Gate Latch released to market. Revolutionary mounting bracket, connector rod and fitting jig makes installation faster and easier. In November 2022, **ASSA ABLOY**—Opening Solutions Australia (a division of the multinational public company in Sweden), acquires D&D Technologies.

TruClose® Multi-Adjust S3 is released to market and wins an Australian **Good Design Award**. The highly adjustable hinge is built for heavy, vinyl and composite gates with large gate gaps. D&D Technologies develops a new, range of **100% recyclable retail bags** to integrate with the sustainable, APCO packaging guidelines for 2025.

LokkLatch® S3 Privacy Gate Latch released to market. Contemporary design with revolutionary mounting bracket, connector rod and, fitting jig for faster and easier installation. **MagnaLatch® PanicBar & ACCESS** are showcased at FenceTech '24. Innovative permanent magnets eliminate all mechanical latching resistance. **Vizage Lockable Stainless Steel Side Pull S3** is developed to add function and beauty to contemporary glass pool gates.

2018 2019 2020 2021 2022 2023 2024

The world's most trusted gate hardware

WHY A WELL-MAINTAINED GATE IS A SMART DECISION

1

In general, gate latches and hinges make up just 1% of the total cost of a perimeter fence...but they make the other 99% function effectively.

2

Gates are the only moving part of the fence system. Gates depend on high-quality gate hardware to function properly in all conditions and climates.

3

Fences and gates can shift due to ground settling, environmental factors and general use and abuse. Latches, locks and hinges should be readily adjustable to ensure that gates work reliably and safely at all times.

4

Properly functioning gates that self-close, self-latch and provide ongoing adjustability (alignment) give consumers peace-of-mind. Gates and gate hardware should provide reliability, security or safety at all times.

ADJUSTABILITY

Hardware that's easily installed and can be adjusted for vertical and horizontal alignment, or self-closing tension.

QUALITY

Industrial-strength engineering polymers and quality, stainless steel components offer rust-free reliability over a lifetime.

RELIABILITY

D&D gate hardware is designed to work in the harshest environments and conditions – freezing, heat, salt, sand...

WARRANTY

D&D's exceptional Lifetime Warranty (most products) is your guarantee of peace-of-mind during and after your hardware has been installed.

TESTING

All our hardware is rigorously tested to meet international Codes/Standards for ISO-9001:2015 Quality Assurance Management System.

SECURITY

D&D's award-winning, innovations provide the quality and strength needed to keep children, homes and businesses safe and secure.

D&D Technologies' range of quality gate latches, locks, hinges and closers are designed to protect children and families by safeguarding swimming pools, homes, gardens and perimeter gates and fences.

Experience counts

D&D Technologies began life as a fencing company more than 35 years ago.

Our multi-award-winning products are the choice of fencing professionals and DIYers worldwide.

We are proudly Made in Australia

All of D&D's polymer gate products are manufactured in Sydney, Australia. Production is subject to ISO-9001:2015 Quality Assurance Certification and auditing to ensure strict quality standards and product reliability are maintained across all products.

We offer a Lifetime Warranty

D&D confidently offers a Lifetime Warranty on all its D&D-manufactured gate hardware products. Some electronic components are limited to a 2-Year Warranty from our supplier/manufacturer.

Our products will not rust or stain

D&D invented the world's first polymer gate latches and hinges (and magnetic gate latches) constructed of engineering polymers and marine-grade stainless steel components. Our long-lasting polymer and stainless steel hardware will not rust, bind, sag or stain.

Your safety is our priority

We are constantly refining the designs of our premium gate hardware to improve child safety around swimming pools, childcare centres, schools, resorts, hotels, homes and businesses.

Innovation is our passion

We employ a dedicated team of Research and Development engineers and industrial designers to develop new and improved products year after year. The result is innovative, state-of-the-art gate hardware boasting numerous design awards and accolades from safety organizations.

POOL AND CHILD SAFETY GATES

Safety gates around pools, homes, childcare centers, schools and wherever safety is critical, need hardware you can trust. D&D invented the MagnaLatch® over 30 years ago, and with millions installed worldwide, they continue to set the standard in compliant, child safety gates.

- MagnaLatch® ALERT Top Pull** – Latch with electronic alarms
- MagnaLatch® Top Pull** – Reliable, magnetic latching
- MagnaLatch® Side Pull Lockable** – Small, magnetic latch
- TruClose® Regular** – Self-closing hinges for regular gates
- TruClose® Heavy Duty** – Self-closing hinges for heavier gates
- SureClose® SF models** – Hydraulic hinge-closers

FRONT ENTRANCE OR GARDEN GATES

Usually constructed of metal, wood, vinyl or Colorbond®, residential entrance gates are often high traffic, so need to be reliable and secure, with smooth and even closure. D&D gate latches and hinges are designed to last – no rusting, sagging, binding or staining. Easy to install, and adjustable to allow for fence or ground movement.

- MagnaLatch® Side Pull** – Lockable or non-lockable latches
- LokkLatch®** – Versatile range of lockable gate latches
- T-Latch** – Toggle-style gravity latch; padlockable
- TruClose®** – Self-closing hinges for heavy or high traffic gates
- KwikFit™** – Aluminum and Polymer self-closing hinges

PRIVACY AND SECURITY GATES

Privacy gates for residential or commercial applications are designed to protect loved ones, pets and property. D&D's range of gate latches, locks and self-closing hinges are guaranteed to offer reliability and added protection for perimeter and side gates.

- MagnaLatch® ALERT Vertical Pull** – Latch with electronic alarms
- MagnaLatch® Vertical Pull** – Reliable, magnetic latching
- LokkLatch®** – Entire range of versatile lockable latches
- SureClose®** – Hydraulic hinge-closers
- TruClose® Regular** – Self-closing hinges for regular gates
- TruClose® Heavy Duty** – Self-closing hinges for heavier gates
- KwikFit™** – Aluminum and Polymer self-closing hinges

DOUBLE DRIVEWAY GATES

Swinging, double driveway gates give a more traditional look by opening from the center. The gates can be automated with less swing and weight than single driveway gates, but require hinges on both sides, plus a latch and optional drop-bolts. D&D's range of double driveway gate hardware is designed for this type of application.

- MagnaLatch® S3 Vertical Pull** – Magnetic, reliable closure
- LokkLatch®** – Range of lockable latches
- TruClose®** – Self-closing hinges for heavy or high traffic gates
- SureClose®** – Hydraulic hinge-closers
- Shut-It® BadAss™** – Heavy duty, weld or bolt-on hinges
- LokkBolt® & Q-Bolt™** – Drop-bolts for Metal, wood and Vinyl

D&D gate hardware for every application

ROUND-POST CHAINLINK GATES

Chainwire gates, also known as chainlink and chainmesh gates, are used for a variety of domestic, commercial or industrial applications, including tennis court fencing, factory/building enclosures, ball-game practice nets, sporting enclosures and temporary fencing.

LokkLatch® ROUND – Lockable Gate Latch for round posts
MagnaLatch® TP or VP with round-post adaptor kit
TruClose® ROUND – Heavy Duty hinges for round posts
Mini MultiADJUST™ – Round post hinge for regular gates
Shut-It® BadAss™ – Weld-on or bolt-on heavy duty hinges
GateStop™ – Reduces gate slam noise

HIGH SECURITY ACCESS GATES

High-security pedestrian gates are designed to provide self-closing and lockable access to secure people and property. Often used for commercial entry gates at schools, apartments, data centers, strata buildings, government depots, police stations, industrial sites and other high security applications.

LokkLatch® DELUXE – Key lockable, premium gate latch
TruClose® Heavy Duty – Self-closing hinges for heavy gates
SureClose® READYFIT – External mount hydraulic hinge-closers
SureClose® FLUSH/CENTER MOUNT – Hydraulic hinge-closers
Shut-It® BadAss™ – Weld-on or bolt-on heavy duty hinges

GLASS GATES WITH ROUND, METAL POSTS

Semi-frameless glass is typically 8mm or 10mm ($\frac{5}{16}$ " or $\frac{3}{8}$ "") thick supported by steel or aluminum round posts. The glass is then mounted into the post with rubber seals to prevent the glass from moving. D&D has developed a range of gate hardware to complement this style of modern pool fence or balustrading system.

MagnaLatch® Side Pull – Lockable or non-lockable latches
Glass Hardware Kit MLSPS2GHK – Latch with gate-stop
MagnaLatch® Vizege® – Stainless steel magnetic latch (bracket required)
TruClose® Vizege – Self-closing hinges with decorative trim

ROLLING ACCESS-CONTROL GATES

Sliding gates are either on a track (wheels slide on metal track) or are of a cantilevered sliding gate system where the gate is structurally supported by rollers or wheels.

LokkLatch® DELUXE – Key lockable, premium gate latch
Shut-It® HardCore™ – Gate wheels and accessories

Choosing your latch or lock

GATE LATCH/LOCK PRODUCT	LOCK TYPE/ REKEYABLE	IDEAL GATE GAP	GAP VARIANCE	VERTICAL ADJUSTMENT	LOCKS OR OPERATES FROM BOTH SIDES OF THE GATE
MagnaLatch® S3 Top Pull & Top Pull ALERT. Magnetic child safety gate latch. ALERT model with visual and audible alarms. Key Lockable.	6-Pin/Yes	¾" 19mm	½"-1½" 13-38mm	1½" 38mm	No

World's most trusted child safety gate latches

Side Pull

Sealed magnets

Powerful magnet is fully sealed from the elements to ensure long-lasting

Vertical Pull

Top Pull

Child-resistant knob

Series 3 knob shape is more ergonomic, but also more child resistant than ever

Visible Lock Indicator

"Red dot" indicator shows, at a glance, whether the latch is locked or unlocked

Rekeyable security lock

6-pin lock cylinder can be rekeyed (by a locksmith) to match existing doors etc.

Built-in post cap spacing

No need for separate post-cap spacers

T-track innovation

Unique and solid rear-mounting track provides superior fixing strength and easy vertical adjustment

Product traceability

Superior, quality manufacturing and responsible tracking through registered product numbering

0401600870 1600879:46

Improved drainage

Sloping feature channels water away from latch and striker body

Alignment indicators

Help identify when vertical or horizontal adjustment is required

Safety "stop"

The original safety stop prevents children from pushing the gate down to unlatch

MAGNALatch® SIDE PULL

The original, versatile magnetic latch

- Small & unobtrusive - easy to install
- Lockable and non-lockable models
- Model for round-post-to-glass gates
- Vertically & horizontally adjustable
- New, snap-fit dress caps - no visible fasteners
- Will not rust or corrode

MagnaLatch® comes standard with a gate gap variance of ½"-1½" (13-38mm). For larger gaps of up to 2" (50mm), an optional spacer is available (see left). Install the spacer behind the Striker mounting plate to ensure proper latch installation and operation. 2" Gate Gap Spacer fits MagnaLatch® Series 2, 3 and ALERT models.

MagnaLatch® S3 Round-Post Adaptor

An optional kit for mounting all MagnaLatch® 'Top Pull' or 'Vertical Pull' models to gates and fences with round posts.

Industry leading safety features

- The world's most trusted safety gate latch
- Ideal for residential or commercial safety gates
- Improved, stylish "Series 3" design
- Industry leading magnetic latching technology
- "Red dot" indicator shows Locked/Unlocked status
- 6-pin lock for higher security (rekeyable, to match doors)
- Vertically & horizontally adjustable
- Alignment marks indicate when adjustment is required

LOKKLatch®

World's first key lockable, polymer gravity latch

Molded latch body

Strong and rust-free.
Constructed of UV-stabilized,
industrial-strength polymer.

Easy installation

Requires only one drilled
hole through post. Fast
and accurate front and
side installation, with
fitting jig provided.

Stainless steel components

316 marine-grade
stainless steel
components will totally
resist rust and stains.

6-pin rekeyable lock

Can be rekeyed (by a locksmith)
to match existing doors and
other accesses.

External Access Push-Button

The LOKKLatch®
range can be
opened from either
side of the gate
using an External
Access Button (EAB)

Vertical adjustment

Latch provides quick and
simple vertical adjustment to
allow for gate sag or ground
movement over time.

Padlockable Gravity Gate Latch

- Toggle-action design compensates for gate sag
- Ideal for gates prone to ground movement
- Fits to all square posts & gate frames
- Padlockable, with padlock storage feature
- Vertically and horizontally adjustable
- Industrial-strength polymer construction
- Stainless steel toggle/latch bolt

Padlock security. Padlock storage feature.

Padlock not included.

PREMIUM Privacy & Security Gate Latch

- Operates and locks from both sides of gate
- New 'fitting jig' provides easier, faster installation
- New ball-joint Connecting Rod simplifies installation
- Two latch-bolt lengths (models) for different gates
- Requires only one drilled hole through post
- Keyed-alike or keyed different options
- Dual 6-pin locks can be rekeyed to match doors etc.
- Includes 5" & 6" (125 & 150mm) rods (spare if needed)
- Vertically & horizontally adjustable
- Industrial-strength polymer construction
- 316 marine-grade stainless components
- Fits fence posts 1½–6" (38–150mm) deep
- Minimum post width 1½" (38mm)

MagnaLatch® Series 3 Safety Gate Latch plus TruClose® Regular self-closing safety hinges with side-fixing legs and Hinge Safety Cap. For metal gates to 66 lb (30kg).

LL3PWDTCA1

LokkLatch® PLUS Medium-Security Gate Latch plus TruClose® Regular self-closing safety gate hinges. For metal gates up to 66 lb (30kg).

TL01KFP

T-Latch™ padlockable, toggle-style general-purpose gate latch plus KwikFit™ Plain Pivot Hinges. For metal or wood gates up to 55 lb (25kg).

LLAAKFPK

LokkLatch® REGULAR General-Purpose, Gate Latch plus KwikFit™ Plain Pivot Hinges. For metal or wood gates up to 55 lb (25kg).

The world's most trusted safety gate hinges

Patented tension adjustment

Quick and easy tension adjustment (closing force) using a large screwdriver at either end of hinge barrel.

Molded hinge body

No rust, binding, sagging or staining! Constructed from UV-stabilized, industrial-strength polymer.

Stainless steel spring

High-quality, stainless steel spring provides reliable closure and lasting performance.

Reinforcement ribs

Molded ribs provide superior torsional and lateral leaf strength.

Optional alignment legs

Models with and without quick-fit alignment legs for fast, convenient installation and added fixing strength.

Concealed Fasteners

Clip-on leaf trim covers hide the fasteners to provide a clean, contemporary finish and enhance gate style.

D&D's super-strong polymer hinges don't rust, sag or bind - even under the most rigorous conditions. The unique housing of the stainless-steel spring requires no lubrication or maintenance. Better yet, the hinges are easy for the homeowner to adjust themselves, eliminating the need for callbacks to the installer.

**KWIKFit™****ALUMINUM**

Traditionally styled, self-closing, aluminum gate hinges

Patented tension adjustment

- Adjust tension from both ends (tension adjustment always facing up)
- 6 tension settings for finer adjustment (suit a range of metal gates)
- Single-handed tension adjustment (using slot-head screwdriver)

Polymer pivot design

Low-friction polymer pivot washers provide long life & low maintenance

Side-fixing legs

For quick alignment during installation plus added fixing strength

Stainless steel spring

Internal torsion spring constructed of stainless steel to prevent binding and staining

Versatile installation

Suits left- or right-swinging gates

Gate weight

Self-closes gates up to 44 lb (20kg)

3 finishes available

Aluminum with powder-coated finish in Black, Bronze or White (KF3A1BL model only available in black)

1" (25mm) narrower leaf model

Now 10% smaller in size. Designed to suit smaller post sizes, with a narrower leaf. Only available in black.

Gate Protection Device in 3 sizes & styles

- Industrial-strength polymer construction + rubber bumper
- Prevents damage to latches & hinges
- Greatly reduces gate-slam noise
- Two side-fixing legs for added strength

CODE	COLOR	GATE MATERIAL
TCGS1	Black, White	Wood, Vinyl
TCGS2	Black	Metal, Wood, Vinyl
TCGS3	Black	Metal

General-Purpose, Ergonomic Gate Handle

- Improved ergonomics & styling
- Side-fixing legs for quick alignment & added strength
- Fits left-or right-hand opening gates
- Won't rust, stain or chip
- Industrial-strength polymer construction
- Available in Black or White finish
- Stainless steel fasteners included

CODE	COLOR	GATE MATERIAL
LL3GH	Black	Metal, Wood, Vinyl
LL3GHW	White	Metal, Wood, Vinyl

Powerful, hydraulic hinge-closers. Heavy duty and corrosion resistant.

READYFIT model

FLUSH MOUNT model

Quick-fit alignment legs

For ease of installation, alignment and double face-fixing strength.

Vertical alignment slots

Re-align hinge (gate) at any time.

Added security

Torx screws that prevent tampering.

Multiple adjustment options

- Adjustable self-closing and speed
- Adjustable final snap-close action
- Gate gap horizontal adjustability $\frac{1}{2}$ "– $1\frac{3}{8}$ " (12–35mm)

Superior corrosion resistance

- Steel weld-on models feature high-performance proprietary, non-electrolytic zinc flake coating (no need to grind off before welding).
- Aluminum screw-on models feature 50-micron thick anodized coating.

Mounting Brackets:

A variety of gate bracket options to suit virtually any square-post application:

- Steel or Aluminum
- Fastened or Welded
- External, Flush Mount or Center Mount

Powerful, hidden hydraulics

Hydraulics are concealed within the hinge providing controlled, quiet closing in a tamper-resistant, compact design.

No need to ever add fluid.

Dual -Bearing Glide System

Two rows of bearings for consistently superior performance

*Check local pool barrier guidelines for proper installation methods. (SF) = Gate will not hold open at 90° (i.e. OK for safety gates).

Do NOT use a hinge with a 90° hold-open feature for pool/child safety gates.

In Australia, hinges must be at least 36" (900mm) apart so that they cannot be used as footholds by toddlers.

CAUTION: A gate-stop must be installed when using SF models. Gate must not be allowed to open past 90°. Doing so voids warranty.

D[®] SUREClose[®] READYFit

External, heavy duty hydraulic hinge-closers

- Hidden hydraulics for quiet, controlled closing
- Screw-on or weld-on; screws and brackets included
- Weld-on models feature proprietary finish – no need to grind off before welding!
- For gate gaps of ½"–1⅜" (12–35mm)
- Alignment side legs give double face-fixing strength
- Final Snap-Close Action in all "108" models
- Emergency override feature for safety and longevity
- Minimum fence post size 2" (50mm)
- Suitable for ADA use

NOTE: Warranty conditions vary according to application and usage. See full Warranty details and Limitations on D&D Technologies' website.

¹ Based on maximum gate size 72"H x 40W (1800x1000mm).

For gates with greater HxW, or if weather conditions such as wind play a role, use hinge combinations with higher self-closing weight ratings.

² **CAUTION:** Not suitable child/pool gates unless a gate-stop is installed at a maximum of 170° opening. DO NOT PROP GATE OPEN.

³ **CAUTION:** When used on swimming pool gates, always consult local authorities for swimming pool Codes.

A gate-stop MUST be installed when using safety models. Gate MUST NOT be allowed to open past 90°. Doing so voids warranty.

⁴ **MEETS ADA REQUIREMENTS** for gate opening and closing angles and self-closing speed.

7801	Drill Jig for timber doors	Constructed from hardened steel with black phosphate coating					

* **Warranty conditions** vary according to door or gate application and usage. See full Warranty details and limitations on D&D Technologies' website.
Door reinforcement hardware available for hollow-core doors.

Routing templates and drill jig available for wood doors and frames. Weld boxes available for metal gates.

Adjustment valves for precise installation

STRONG, SELF-CLOSING PERFORMANCE

Product Code 77108523 Description Hydraulic Closer With a Plain Hinge

* **CAUTION:** A floor-mounted **DOOR STOP** is required to prevent a door/gate opening beyond 125° (see above diagram). Forcing a door/gate beyond a 125° opening may damage closer and door/gate frame. Failure to install a Door Stop where required may void Warranty.

6 DIFFERENT ADJUSTMENTS FOR PERFECT INSTALLATION

REF	ADJUSTMENT	UNIT	RANGE
1	Door Height (Vertical)	Both	+/- 5/64" (2mm) with 3/64" (1.25mm) steps
2	Lateral	Both	+/- 3/64" (1.25mm)
3	Depth and Inclination	Both	Gap between post and door leaf is adjustable from 5/64" - 1/4" (2-6mm)
4	Door Latching Speed	Closer	Between 12°-0°
5	Door Sweep Opening Angle	Closer	Steps at 60°, 80°, 100° and 125°
6	Door Sweep Closing Speed	Closer	125° to 0°

D[®] SUREClose[®] EASY

Hydraulic, Gate Closer for Center-Hinge Mounted Gates

- Add-on hydraulic closer - mounts to top of gate
- Adjustable self-closing speed & final snap action
- Can be used with most center-mounted hinges
- Self-closes gates up to 180 lb (80kg)
- Horizontally adjusts: up to 4" (100mm) gate gaps
- Opens to, and self-closes from, 90° (no hold-open)
- Maintenance-free: never need to add fluid
- High corrosion resistance - 50-micron anodizing
- Includes gate and post mounting brackets
- Suitable for ADA use

CODE*	MODEL	DESCRIPTION
72108423	SC 108SF S**	Gate Closer – Aluminum Brackets

Gate Function

EASY - Closer
Models | Bracket Material
72108423 | Aluminum
Mounting Brackets & Fasteners included

SELF-CLOSING - SAFETY (SF Model)
Suitable for child/pool safety*
DO NOT PROP GATE OPEN

CAUTION: When used on swimming pool gates, always consult local authorities for swimming pool Codes. A gate-stop must be installed when using SF models. Gate MUST NOT be allowed to open past 90°. Doing so voids warranty.

- Self-closing Speed adjustable
- Final snap-close action For electric/coded locks

GATE WIDTH	MAX SELF-CLOSING GATE WEIGHT
40" (1000mm) wide	176 lb (80kg)
48" (1200mm) wide	132 lb (60kg)

CAUTION: Based on max. gate width 40"W (1000mm) and 48"W (1200mm). For gates with greater W, or if weather conditions such as wind play a significant role, use a different model of SureClose® hinge + closer combination with higher self-closing weight ratings.
CAUTION: A gate-stop MUST be installed when using SF models. Gate MUST NOT be allowed to open past 90°. Doing so voids warranty.
*All EASY closers include fasteners, gate and post mounting brackets.

* **Warranty conditions** vary according to gate or door application and usage. See full Warranty details and limitations on D&D Technologies' website.
All EASY closers include fasteners, gate and post mounting brackets.
****Yes (SF)** = Gate will not hold open at 90° (OK for safety gates). Do NOT use a hinge with a 90° hold-open feature (-) for pool/child safety gates.

Heavy duty hinges tested to over 1 million cycles. Adjustable and powder-coatable.

Heavy duty shaft (bolt)

On all hinges; gives the highest weight rating in the industry

Zinc electroplating

- Inhibits rust and corrosion
- No need to grind off before welding
- On all components except stainless steel, aluminum and 'rusted look'

Post bracket

- Horizontally adjustable for accurate installations
- Precision machining that fully utilizes the adjustment slots and maximizes welding surfaces

Unique Stover™ lock-

- Innovative, shaped threads provide a vibration-resistant friction fit so nut stays firm
- Top thread section is deformed to create two or three locking zones (can be re-used 2-3 times)
- All-metal locknuts withstand higher temperatures than nylon-insert locknuts

Precision bushing

Distributes gate load for optimal performance and longer life

Tightest tolerances

- CNC machined to perfection
- Virtually frictionless rotation

Hinge Body (on

- Fits round or flat surfaces
- Decorative, brushed finish

High-temp sealed bearings

- Safe to powder-coat with hinges installed on gate (excluding CI3850 self-closing hinge and CI3800 Stainless Steel BadAss)
- No greasing, no maintenance.
- Hinge options with 1, 2, 3 or 4 bearings
- Performs better than roller cages that require periodic greasing

**Adjustable yoke for perfect installations. † All components, including the sealed bearings, are stainless steel. All weight ratings are based upon two hinges.

ADA Standards 404.2.8.2 Spring Hinges.

Door and gate spring hinges shall be adjusted so that, from the open position of 70 degrees, the door or gate shall move to the closed position in 1.5 seconds minimum.

Bolt-On Range

Baby Bolt-on - Steel to Steel

- Suits metal residential or small commercial gates
- One sealed maintenance-free bearing
- Horizontally adjustable for precise installations
- Flat, bolt-on brackets for through-bolting
- Maximum gate weight: 300 lb (140kg)**

CI3770 Half Bolt-on - Steel to Steel CI3780 Half Bolt-on - Steel to Aluminum

- Designed to bolt on to an end post
- Two sealed maintenance-free bearings
- Horizontally adjustable for precise installations
- Flat, bolt-on brackets for through-bolting
- CI3770 Maximum gate weight: 1000 lb (450kg)**
- CI3780 Maximum gate weight: 600 lb (270kg)**

Bolt-on - Steel to Steel

- Designed to bolt on to an end post
- Two sealed maintenance-free bearings
- Horizontally adjustable for precise installations
- Flat, bolt-on brackets for through-bolting
- Maximum gate weight: 1000 lb (450kg)**

CI3720 Face Mount Bolt-on – Steel to Steel

- Achieve gate gaps as small as ½" (13mm)
- No maintenance, smooth operation
- Offers a full 180° gate opening
- Adjustable bracket for round or square posts
- Flat, bolt-on brackets for through-bolting
- **Maximum gate weight: 1000 lb (450kg)**

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3720	Zinc	Bolt-On	½"–1" (13-25mm)	Steel	Steel	7½" (191mm)	3.8 lb (1.7kg)

CI2054	Zinc	Bolt-On	2¾"–3¾" (70-81mm)	Steel	Steel	9½" (241mm)	15 lb (6.8kg)

Bolt-On Range

Wide Bracket, Half Bolt-on/Weld-on Hinges

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3740A	Unfinished	Bolt-on/ Weld	3¼"-3¾" (73-86mm)	Aluminum	Aluminum	6" (152mm)	3 lb (1.36kg)
CI3740	Zinc/ Unfinished	Bolt-on/ Weld	3¼"-3¾" (73-86mm)	Steel	Aluminum	6" (152mm)	4 lb (1.8kg)
CI3760A	Unfinished	Bolt-on/ Weld	3¼"-3¾" (73-86mm)	Aluminum	Aluminum	6" (152mm)	4 lb (1.8kg)

CI3740 - 4" (102mm) Combo Steel /Aluminum Body Half Bolt-on CI3740A - 4" (102mm) Aluminum Half Bolt-on

Made to bolt/weld to 4" or 5" (102 - 127mm) posts

CI3760A - 6" (152mm) Aluminum Body Half Bolt-on

Made to bolt or weld to 6" (152mm) or larger fence posts

- Wider brackets enable anchor points to be positioned at the sides, rather than center of fence post
- Side mounting reduces flex, preventing fatigue in post
- High-temperature sealed bearings - safe to powder-coat with hinges installed on gate
- No greasing, no maintenance – ever!
- Precision bushing - distributes gate load for optimal performance and longer life
- CNC machined to perfection for near frictionless movement
- **Maximum Gate Load: 1,000 lb (450kg)**
- **Maximum Gate Weight: 600 lb (270kg)**

CI3950 Barrel Bolt/Weld-on – Steel to Steel

- The strongest, most versatile metal-gate hinge on the market
- Bolt-on or weld-on models for heavy duty gates
- Four sealed maintenance-free bearings
- Offers a full 180° gate opening
- Gate gap fixed at ½" or 3½" (13mm or 89 mm) depending on mounting
- **Maximum gate weight: 1500 lb (680kg)**

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3950	Zinc	Bolt-On	Fixed ½" or 3½" (13 or 89mm)	Steel	Steel	5⅞" (150mm)	4.0 lb (1.8kg)

Choosing the correct Shut It® hinges for your gate

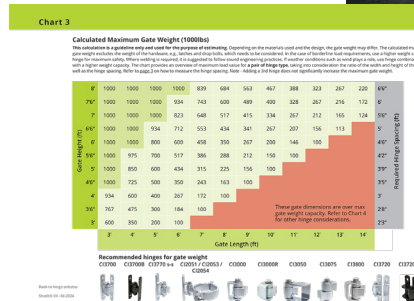

D&D has set up a series of charts to help choose the correct pair of Shut It® hinges depending on the size, material and weight of a gate.

The calculated gate weight charts are based on a symmetrical gate design where the center of gravity can be determined.

This calculation is a guideline only and used for the purpose of estimating. Depending on the materials used and the design, the gate weight may differ.

The calculated maximum gate weight excludes the weight of the hardware, e.g., latches and drop bolts, which needs to be considered. In the case of borderline load requirements, use a higher weight capacity hinge for maximum safety.

Where welding is required, it is suggested to follow sound engineering practices. If weather conditions such as wind plays a role, use hinge combinations with a higher weight capacity. The chart provides an overview of maximum load value for a pair of hinge type, taking into consideration the ratio of the width and height of the gate as well as the hinge spacing.

IMPERIAL CHARTS

METRIC CHARTS

Self-Closing Range

CI3825 Weld-On, Closer CI3850 Weld-On, SC Set

- Set contains CI3825 + CI3000
- Suits restricted-access and industrial gates
- Eliminates the need to fit a gate closer
- Installation must include a gate-stop or latch/lock
- 5 tension-adjustment settings (inc. bracket)
- **Max self-closing gate weight: 140kg (CI3850 set)**
- **Max self-closing gate weight: 200kg (2 x CI3825)**

- One sealed maintenance-free bearing (no greasing)
- High-temp bearings safe to powder-coat
- Designed for lighter gates
- Horizontally adjustable
- Ideal for square or round post installations
- **Load rating per gate:** 500 lb (230kg)
- **Maximum gate weight:** 300 lb (140kg)

CI3000 – Original BadAss™
CI3100 – Original BadAss™ 'Rusted'

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3000	Zinc	Weld	2⅜"–2⅞" (61–74mm)	Steel	Steel	3¾" (97mm)	2.5 lb (1.1kg)
CI3100	Unfinished	Weld	2⅜"–2⅞" (61–74mm)	Steel	Steel	3¾" (97mm)	2.5 lb (1.1kg)

- Adjustable bracket for precise installations
- Two sealed maintenance-free bearings
- High-temp bearings safe to powder-coat
- Hinge body welds to either flat or round posts
- **Load rating per gate:** 2,000 lb (900kg)
- **Maximum gate weight:** 1,000 lb (450kg)

CI3200 – BadAss™ Combo Steel Body
CI3300 – BadAss™ Combo Aluminum Body
CI3400 – The Aluminum BadAss™

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3200	Zinc/Unfinished	Weld	2 $\frac{3}{8}$ "–2 $\frac{1}{2}$ " (61–74mm)	Aluminum	Steel	3 $\frac{3}{4}$ " (97mm)	2.5 lb (1.1kg)
CI3300	Zinc/Unfinished	Weld	2 $\frac{3}{8}$ "–2 $\frac{1}{2}$ " (61–74mm)	Steel	Aluminum	3 $\frac{3}{4}$ " (97mm)	2 lb (1kg)
CI3400	Unfinished	Weld	2 $\frac{3}{8}$ "–2 $\frac{1}{2}$ " (61–74mm)	Aluminum	Aluminum	3 $\frac{3}{4}$ " (97mm)	2 lb (1kg)

- Adjustable bracket for precise installations
- High-temp bearings safe to powder-coat
- Two sealed maintenance-free bearings (per hinge)
- Perfect for that high-end installation
- Round or plate post installations
- **Load rating per gate:** 1,000 lb (450kg)
- **Maximum gate weight:** 600 lb (270kg)

CI3800 – Stainless Steel BadAss™

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3800	Unfinished	Weld	2 $\frac{3}{8}$ "–2 $\frac{1}{2}$ " (61–74mm)	Stainless	Stainless	3 $\frac{3}{4}$ " (97mm)	2.5 lb (1.1kg)

- 304 stainless steel includes the bearings, shaft (bolt), washers, retaining ring and locknut
- Two sealed maintenance-free bearings (no greasing)
- Adjustable yoke for perfect installations
- Hinge body welds to either flat or round posts
- **Load rating per gate:** 2,000 lb (900kg)
- **Maximum gate weight:** 1,000 lb (450kg)

Weld-On Range

CI3500 – Heavy Duty BadAss™

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3500	Zinc	Weld	2 3/8"–2 7/8" (61–74mm)	Steel	Steel	3 3/4" (97mm)	3.5 lb (1.6kg)

- High-temp bearings safe to powder-coat
- Adjustable bracket for perfect installations
- Hinge body welds to either flat or round posts
- Holds 50% more load than the 'Original' BadAss
- **Load rating per gate:** 3,000 lb (1,360kg)
- **Maximum gate weight:** 1,500 lb (680kg)

CI3520 – 100 Year BadAss™

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3520	Zinc	Weld	2 1/2"–3" (64–76mm)	Steel	Steel	4" (104mm)	3.5 lb (1.6kg)

- High-temp bearings safe to powder-coat
- Thicker bracket and higher-tensile shaft
- Hinge body welds to either flat or round posts
- Adjustable bracket for precise installations
- Guaranteed for 100 years!
- **Load rating per gate:** 3,000 lb (1,360kg)
- **Maximum gate weight:** 1,500 lb (680kg)

CI3050 – Face Mount Weld-On BadAss™

CODE	FINISH	FIXING	GAP VARIANCE	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3050	Zinc	Weld	1/2"–1" (13–25mm)	Steel	Steel	3 3/8" (98mm)	1.8 lb (0.8kg)

- Opens to 180°
- Achieve gate gaps as small as 1/2" (13mm)
- Horizontally adjustable to 1/2" (13mm)
- High-temp bearings safe to powder-coat
- **Load rating per gate:** 2,000 lb (900kg)
- **Maximum gate weight:** 1,000 lb (450kg)

CI3075 – VersaWeld™ BadAss™ Hinge

CODE	FINISH	FIXING	GATE GAP	BRACKET	BODY	HEIGHT INCH/MM	WEIGHT LB/KG
CI3075	Zinc	Weld-On	Flat posts: Fixed 2 3/4" (70mm). Round posts: no gap.	Steel	Steel	3 3/4" (95mm)	2.2 lb (1kg)

- One simple hinge that welds on nearly any gate right out of the box
- Fits either flat or round posts or gates no adaptors needed
- High-temp bearings safe to powder-coat
- Smoother than traditional block or barrel hinges
- 2 sealed ball bearings
- Maintenance-free, never needs lubrication
- **Load rating per gate:** 2,000 lb (900kg)
- **Maximum gate weight:** 1,000 lb (450kg)

Shut-It® benefits of powder-coating with hinges installed on the gate

- High-temperature sealed bearings
- No need to remove bearings prior to powder-coating
- Applies to all Shut-It® hinges, except self-closing models and stainless steel model (CI3800)
- No more need for welding in the field
- Consistent, high-quality finish
- Gate, fence, hinge and weld finish all color match
- No greasing, no maintenance - ever!
- Horizontal adjustability for perfect installation
- Tested to over 1 million open/close cycles
- Shut It® now offers matte black, powder coated hinges (CI3700B • CI3720B • CI3750B)

CI3975 Uphill BadAss™ Strap Hinge Set

(Includes: 1x CI3900 + 1x CI3925)

Brilliant designs. Badass Products. Epic Results

The Shut-It® Hardware story

Shut-It® Gate Hardware starts as Counsel Industries LLC and becomes an early leader in the design and distribution of hardware and gate systems for the fence and access control industries.

Mid-1990s: As vehicular access control begins to explode as an industry, two veterans of the fence and access control industries discovered that many of their maintenance and repair issues for automated gate systems were being caused by the faulty or inferior hardware used on many gates.

With the help of a team of engineers and an award-winning CNC machinist, Counsel leaders set out to develop a line of products that would eliminate the damage caused to expensive operator systems and gates. After years of development and field testing, Counsel Industries was born.

1998: Counsel begins marketing innovative gate solutions designed to ease installation requirements and eliminate premature wear on expensive, automated gate-operator systems.

2010: Counsel rebrands itself as **Shut-It® Gate Hardware** in order to better reflect what the company had become - **Brilliant Designs. BadAss Products. Epic Results.**

2016: D&D Technologies acquires Shut-It® Gate Hardware.

BadAss hinges, HardCore Wheels, full cantilever and slider systems are added to the D&D family of products.

D&D + Shut-It®: providing the industry with the broadest range of gate hardware.

2019: The VersaWeld hinge is added (CI3075). Designed for round or flat posts without the need for an adaptor, giving installers a single hinge that they can weld to just about any steel gate.

- Weld-on and bolt-on Face Mount hinges (CI3050 & CI3720) are introduced, enabling full, unobstructed 180° openings.
- To reduce flexing on 4" (102mm) wide posts, three models of hinges with wider mounting brackets (CI3740A, CI3740 & CI3760A) are introduced to ensure added strength and longevity.

2021: A face-mounted, self-closing hinge set (CI3880) is added and features both vertical and horizontal adjustability.

The Shut-It® difference

- CNC machined to the tightest tolerances in the industry
- Unique bushing design produces near-frictionless movement and maintenance-free usage
- Highest-quality sealed radial ball bearings never need greasing or maintenance
- Four different sealed bearing configurations – 1, 2, 3 or 4 bearings per hinge; 2 bearings per wheel.
- All components are zinc electroplated to prevent rust and corrosion - exceptions: aluminum, stainless steel and rusted look
- Steel Stover™ lock-nuts used to prevent loosening and slipping
- Super-hard, cold-rolled steel used on all HardCore wheels; literally Hard to the Core
- Slotted yokes for horizontal adjustability

Proper welding

 **Warning:** Hinges will be damaged if electrical welding current is not properly grounded, resulting in the Warranty being made void.

- Damage can be caused by excessive heat or by welding current passing through the bearings.

Ensure that the welding ground is always on the side being welded.

Current must not pass through the bearings or severe damage will result.

- To prevent heat-related damage to the bearings, the welding process must be done in several small segments.

Weld one surface at a time and alternate between top and bottom hinge. After each small segment is welded, the hinge should be allowed to cool before welding the next segment.

- Use general, field-welding operations with suitable heat transfer controls. Protect hinge from weld spatter.
- Clean up and finish with appropriate corrosion and rust protection.

**SHUTIt®****HARDCORE™**

Anatomy of a Shut-It® Gate Wheel

Hardest steel

- At Shut-It® we use the hardest steel in the industry in our wheels, making them literally 'Hard to the Core' (30 RC Rated)

Zinc electroplating

- Long lasting rust and corrosion protection
- On all wheel components except aluminum carriage plates

Tightest tolerance in the industry

- Virtually frictionless rotation

Spacer (bushing)

- Spacer options for 1½" (38mm) and 2" (50mm) wide gate profiles
- Distributes load directly onto the center ring of the sealed bearings for optimal performance and long life

Two sealed bearings

- Require no greasing
- Maintenance free

Narrow wheel profile

- Reduces possibility of wheel hitting debris and running off track

Carriage plates

- Most versatile in assuring proper spacing under gates
- No need to stock multiple wheel boxes
- Less obtrusive than wheel boxes
- Fits to all common gate widths
- Vertically adjustable
- Available in aluminum and steel

Full Cantilever Gate System: 4-Wheel System

1	Fence Line
2	Two Posts: 3 x 3 x 3/16" (76x76x5mm), 4 x 4 x 3/16" (102 x 102 x 5mm), or 6 x 6 x 3/16" (152 x 152 x 5mm)
2A	Connect two posts with rail (can be used for operator mount)
3	Weld four Cantilever wheel assemblies to post
4	Weld or bolt 2 x 2 Cantilever rails to gate frame
5	Gate frame with support panel posts 3 x 3" (76x76mm) – up to 12" (3,658 mm) opening 4 x 4" (102 x 102mm) – up to 22" (6,700mm) opening 6 x 6" (152 x 152mm) – over 22" (6,700mm) opening Support panel length up to 12" (3,658mm) opening
6	For cantilever wheel assemblies: use CI2240 for 4" (102mm) wheels and CI2260 for 6" (152mm) wheels

Full Cantilever Gate System: Weld-On/Bolt-On Rail

GATE SYSTEM SPECIFICATIONS	
1	Fence Line
2	Two Posts: 3 x 3 x 3/16" (76x76x5mm), 4 x 4 x 3/16" (102x102x5mm) 1 post at fence height – 1 post 24" (610mm) above grade
2A	Connect two posts with rail 6.5" (165mm) up from grade (can be used for operator mount)
3	Cantilever bracket with 2.5" (64mm) extensions (2 total)
4	Weld or bolt Cantilever rails to gate frame
5	Gate frame
6	2.5 x 2.5 x 3/16" (64 x 64 x 5mm) continuous angle weld for guide
7	Weld Guide Assembly CI2300 or CI2350 (extended version) to guide post
8	For Cantilever wheel assemblies: Use CI2240 for 4" (102mm) wheels and CI2260 for 6" (152mm) wheels

Full Cantilever Gate System - built-In

1	Fence Line
2	Two Posts: 3 x 3 x 3/8" (76x76x5mm), 4 x 4 x 3/8" (102x102x5mm) 1 post at fence height - 1 post 24" (610mm) above grade
2A	Connect two posts with rail 6.5" (165mm) up from grade (can be used for operator mount)
3	Cantilever bracket with 3" (76mm) extensions (2 total)
4	Gate frame with cantilever rail can be used as part of frame
5	2.5 x 2.5 x 3/16" (64 x 64 x 5mm) continuous angle weld for guide
6	Counsel guide weld to guide post
7	For Cantilever wheel assemblies: Use CI2240 for 4" (102mm) wheels and CI2260 for 6" (152mm) wheels

Clearance advantage for a 4" Wheel

Shut-It® wheels machined from the hardest steel, enable a narrow design

Narrower wheel profile of the Shut-It® Wheel helps prevent wheel from hitting debris and track anchors.

Powder-coated latches, hinges and accessories for wood gates

- Thicker-gauge steel improves overall strength and durability
- Patented polymer bearings and high-tech lubricants prevent binding
- Superior strength and appearance – no rough edges
- Superior powder-coated finish (highly corrosion resistant)
- Fully treated screws included, with a proprietary, corrosion-resistant finish
- Screw heads have additional powder-coated weatherproofing
- Striker-bolt head prevents bolt from slipping through the latch
- Hinges will not bind (powder-coated before assembly)

5 YEAR ON SPRINGS

Standard to Narrow.

DDSLM Contemporary Post Latch.
Standard to Narrow.

Swimming Pool Gate Compliance & Safety

These are important product features and steps that should be considered when choosing a pool safety gate and associated latches and hinges.

A pool gate can and should be made safe, one that will restrict unauthorized access by adventurous toddlers and fully comply with international Codes/Standards for swimming pool gates and fences.

Safety checklist for pool gates

- ✓ Gate should open outwards, away from the pool
- ✓ Latch release knob should be out of reach of children under 5 years. (Check local Codes/Standards for minimum requirements.)
- ✓ Fence should be at a minimum height to comply with your region. (Check local Codes/Standards for minimum requirements.)
- ✓ Gate must be self-latching (self-closing)
- ✓ Fence perimeter must have adequate distance from other climbable objects or structures
- ✓ Gate carries reliable and tension-adjustable hinges
- ✓ Latch cannot be key-locked in the "open" position
- ✓ Latch cannot be opened using implements or force
- ✓ Maximum clearance from finished ground surface is no more than 4" (100mm)
- ✓ Gate will latch from any position, including from resting on the latching mechanism
- ✓ Gate complies with all relevant Codes/Standards and legislation for pool safety

NOTE: Information above is supplied and expressed by D&D Technologies in the interests of consumer and public safety. Always check requirements with local building officials re Codes & ordinances in your area. For USA visit www.cpsc.gov
For details of Australian Standards relating to gate and fence safety visit Standards Australia at www.standards.com.au (AS1926.1-2012).

THE LATCH

Magnetically triggered latching (i.e. no mechanical resistance to closure).

Gate latch cannot be released by pushing, pulling or shaking gate.

Latch release knob works independently of the latch bolt mechanism ("Lost Motion"). Latch will engage at all times.

Key lockable for added security, but ensures the latch cannot be locked open.

Quality tested, magnetic mechanism that will not fail with use or from environmental factors.

Ability to adjust the latch vertically and horizontally to correct for gate movement.

Latch mechanism (shrouded) cannot be opened with common implements.

THE HINGE

Self-closing hinges should be easily tension-adjustable, before and after installation.

Reliable hinges made from industrial-strength polymer and stainless steel components.

Hinges are guaranteed against rust, binding, sagging or staining.

IMPORTANT: It is the responsibility of the property owner to regularly check that pool gates (including latches and self-closing hinges) are maintained to prevent unauthorized access to pools by toddlers.
