

Finally, a latch that swings both ways.

The innovative Lock Thru™ latch offers a compelling design with an incredibly useful feature. Wouldn't it be great to be able to open your padlock from the inside or outside of the fence. This new design offers the flexibility of using

1 padlock allowing access from the front or back of the gate.

(Note: Minimum standard gate gap is 1¼". For tighter gaps, see back of this sheet.)

- Open the padlock from either side of the gate
- Simple to lock or unlock as the latch rotates to you
- The gate may be opened from the inside or outside of the fence
- Avoid "walk-arounds"
- Enhances security as it helps eliminate the excuse of not locking the gate
- Innovative design for wood gates
- Zinc-plated steel & powder coated
- Compatible with left or right hand gates
- Mounting hardware included
- Patent-pending
- Padlock not included
- Quantity 20/box, weight 24lb per box
- **Part # LT1-BK**
