

Nationwide Industries Lifetime Warranty

Cantilevered Gate Roller Assemblies

Nationwide Industries warrants that the material and workmanship used in the manufacture the cantilevered roller assembly are of good quality.

Nationwide Industries will repair or replace at no cost any part proving defective in material or workmanship.

In order for this warranty to become effective, the cantilevered gate roller assembly must be utilized in the normal service for which they were intended and shall not have been altered in any manner. The use or modification of a part of incorrect specification, which directly or indirectly results into failure of the unit, shall void this warranty. The following conditions will void this warranty:

1. Lack of scheduled maintenance (It is recommended that all gates be inspected bi-monthly for alignment and adjusted if necessary.)
2. Gate being out of alignment
3. Evidence of damage (vehicle, or etc.)

This warranty is limited to the replacement of the specified parts or component only that are acknowledged to be defective. Labor expense to remove and/or reinstall the cantilevered gate roller assembly will be borne by the purchaser and **Nationwide Industries** liability is extended only to the furnishing of said parts or components.

Nationwide Industries shall not be responsible or liable for consequential damages or any contingent liability arising out of the failure of any parts or products to operate properly.

Any products returned to **Nationwide Industries** must have a Return Materials Authorization (RMA) number. The item must be packaged and marked with the RMA number and shipped freight prepaid to **Nationwide Industries**. Any product returned without a proper RMA number and/or without the freight being prepaid will be refused.

This is the only warranty of the cantilevered gate roller assembly authorized by **Nationwide Industries**. None other is authorized by any person or distributor.
