

8” (120lb) Cable Tie Specifications

- Faster –low insertion and pull through force
- Stronger – high tensile strength is achieved from one piece, advanced pawl, and teeth design
- Purer – manufactured from filtered nylon reducing particle contamination
- Easier – angled tail provides quicker initial insertion alignment and tail finger grips allow easier handling and tightening
- Safer – rounded edges provides added safety and eliminates installation damage
- Consistent – formulated molding processes

Color:	U.V. treated Black
Length inch/mm:	15.0/383.3
Width inch/mm:	.300/7.620
Thickness inch/mm:	.076/1.930
Tie Tensile:	120lb
Bundle Diameter:	4.06
