- Single Mode Protection .....Hot to Neutral
- Clamping Voltage.....340V
- Max. Spike Current .....4500 Amps
- Energy Dissipation.....60 Joules
- Max. Spike Voltage .....6000 Volts
- Clamping Response Time .....25 Nanoseconds

## DESCRIPTION

The **REVERE ENGINEERED™** RT-1620SL/M is a 16.5VAC, 20VA Class II U.L. Encased Plug-in Transformer with LED indicator for power supervision, built in cable strain relief, and with basic surge protection. Its construction is a bright decorator white colored plastic. It comes with a mounting tab and mounting screw. The compact design, as well as its decorator color, makes it perfectly suitable for office or residential decors.
