

TENAX[®]

SOLUTIONS ALL AROUND YOU

PET FENCE

RECOMMENDED USES
Barrier fencing for pet and wildlife control/protection.

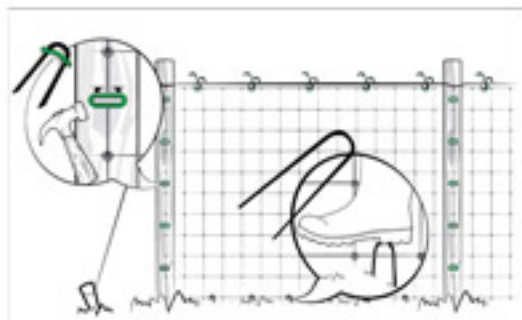

MESH SIZE 1.77-IN X 1.97-IN
C FLEX BLACK

Toolkit

YOU MAY NEED

posts
self-locking ties
sod staples
hog rings
tie wire
scissors
hammer

INSTRUCTIONS

(1) Place posts every 8 feet securing your Tenax fence to each post with self-locking ties every 12". (2) Place sod staples every 5 feet at the bottom of the fence to prevent animals from pushing under. (3) Use hog rings, tie wire or self-locking ties to secure two sections of netting together. Overlap sections 3-4 inches to improve strength of the connection.
