www.HooverFence.com

Established in 1976, Hoover Fence Co. has been operating as a supplier of fence and fence-related products for over 30 years. We provide products wholesale and retail to homeowners, contractors, trade partners, and retailers throughout the USA and beyond.

We are not an Internet company that sells fence. We are a fence company that markets primarily via the Internet. The difference is: we know the products we handle because we have worked with them.

While in business for the past three decades, Hoover Fence Company has developed into a mid-sized business. We are small enough to provide individual attention to each and every order, yet large enough to tackle the largest fencing projects. We have a loyal workforce dedicated to being the best in the fence industry. It is our belief that our experienced employees are the best suited to provide the service required for many of the products we sell. We offer technical support on all our products.

As a family-owned-and-operated business with our name as our trademark, we must always value the commitments and promises made to our customers and our suppliers—not only as a responsible business entity, but because our family name is at stake. We are proud of this contrast to corporate America.

We stock many of our products on our beautiful, 20-acre, home-based business in the southeast corner of Portage County, Ohio. We do not stock everything we sell. It's more economical to ship some products directly from the warehouse and manufacturer to you. You will save as a result. Providing the best products in the best economical fashion ensures success.

Hoover Fence Co. strives to provide only the best of products available in the fencing industry—including aluminum and steel fence, vinyl fence, chain link, and wood fence—at the best available prices. Our incredible selection of access control products, gate hardware, and specialty fence, deck, and railing products are surpassed only by our expertise using them. We offer free shipping on many of the items in our catalog, and free freight incentives on larger fence orders. We can ship our products nearly anywhere. Over three decades of forming relationships with the largest and best manufacturers in our industry has enabled us to negotiate the best of distribution practices and prices direct to homeowners and contractors alike. Further, our experienced staff, well-stocked warehouses, and fabrication services, will always allow us to serve as an extended arm to your company or project. With us, there is no project too big, or too small—you will receive the best service

available whether you need a few nuts and bolts, or miles of fence.

Our world renowned, user-friendly website—www.hooverfence.com—features nearly every product we offer and is packed with feature-rich resources such as: online fence material calculators, interactive fence drawing programs, free how-to install manuals, how-to videos, and helpful do-it-yourself tutorials. We update our site daily and encourage you to visit frequently for up-to-date product information, current prices and specials, and new innovative products. Visit us online today for free fence estimates, how-to advice, or contact us by email or phone for a free consultation.
